Anti-Dumping Review Panel

Customs Act 1901

Notice under section 269ZZI

Steel Reinforcing Bar exported from the People's Republic of China

The Anti-Dumping Review Panel (ADRP) has received applications for review of a decision (Reviewable Decision) by the Parliamentary Secretary to the Minister for Jobs and Innovation (Parliamentary Secretary) following a review of anti-dumping measures applying to Steel Reinforcing Bar exported from the People's Republic of China (Reviewable Decision) by Jiangsu Shagang Group Co., Ltd, Hunan Valin Xiangtan Iron & Steel Co., Ltd and Jiangsu Yonggang Group Co., Ltd (the Applicants).

Applications were received from:

- Jiangsu Shagang Group Co., Ltd;
- Hunan Valin Xiangtan Iron & Steel Co., Ltd; and
- Jiangsu Yonggang Group Co., Ltd.

The Reviewable Decision was published on the Anti-Dumping Commission (ADC) website on 20 April 2018 ([ADN 2018/49](#)).

The ADRP is satisfied that the following grounds are reasonable grounds for the reviewable decision not being the correct or preferable decision:

1. The Parliamentary Secretary erred in the retrospective application of section 269TAB(2A) of the *Customs Act 1901* (the Act) in the determination of the export price for each of the Applicants;
2. The Parliamentary Secretary incorrectly determined that each of the Applicants were a "low volume exporter" as defined under section 269TAB(2A) of the Act; and
3. The Parliamentary Secretary erred in determining the billet benchmark price for each Applicant was based upon the purchase price of billet sold to other exporters who were not integrated producers.
4. The Parliamentary Secretary erred by incorrectly calculating a timing adjustment in determining the Applicant's export prices.

The ADRP proposes to conduct a review of the decision.

The goods to which this review relates are:

Hot-rolled deformed steel reinforcing bar whether or not in coil form, commonly identified as rebar or debar, in various diameters up to and including 50 millimetres, containing indentations, ribs, grooves or other deformations produced during the rolling process.

The goods include all steel reinforcing bar meeting the above description of the goods regardless of the particular grade or alloy content or coating.

*Goods excluded are plain round bar, stainless steel
and reinforcing mesh.*

Submissions

Interested parties have **30 days** from the date this notice is published to provide the ADRP with a submission.

If your submission contains confidential information, you must provide a public version that can be published on the ADRP website. Failure to do so will result in your submission not being considered.

You may either email your submission to ADRP@industry.gov.au or mail the submission to –
