Customs Act 1901

Notice under section 269ZZI

Steel Reinforcing Bar exported from the Kingdom of Thailand

The Anti-Dumping Review Panel (Review Panel) received an application from Millcon Steel Public Company Limited (Millcon) seeking a review of a decision by the Minister for Industry, Science and Technology to fix different variable factors under subsection 269ZDB(1)(a)(iii) of the *Customs Act 1901* (Customs Act) in respect of the dumping duty notice applying to Steel Reinforcing Bar exported from the Kingdom of Thailand by Millcon (the Reviewable Decision).

The Reviewable Decision was published on the Anti-Dumping Commission (ADC) website on 28 July 2020 (ADN 2020/72).

The Review Panel is satisfied that the following ground is a reasonable ground for the Reviewable Decision not being the correct or preferable decision:

- (a) The Minister made incorrect assessments and determinations with respect to Millcon's exports, pursuant to subsection 269TAB(2A) of the Customs Act.

The Review Panel proposes to conduct a review of the Reviewable Decision in relation to the above ground.

The goods to which this application relates are:

Hot-rolled deformed steel reinforcing bar whether or not in coil form, commonly identified as rebar or debar, in various diameters up to and including 50 millimetres, containing indentations, ribs, grooves or other deformations produced during the rolling process.

The goods covered by the measures include all steel reinforcing bar meeting the above description regardless of the particular grade or alloy content or coating.

Goods excluded from the measures are plain round bar, stainless steel and reinforcing mesh.
