

# ADRP Conference Summary

## Review No. 151 – Aluminium Zinc Coated Steel of a width equal to or greater than 600 millimetres exported from the Republic of Korea, Taiwan and the Socialist Republic of Vietnam

Panel Member	Jaclyne Fisher
Review type	Review of Minister's decision
Date	7 February 2022
Participants	██████████ (representing Hoa Sen Group Joint Stock Company (HSG); Mayuran Jeyarajah and Harsha Athulathmudali, Anti-Dumping Commission (ADC) representatives
Time opened	9:00am AEDT
Time closed	9.10am AEDT

### Purpose

The purpose of this conference was to obtain further information in relation to the review before the Anti-Dumping Review Panel (Review Panel) in relation to Aluminium Zinc Coated Steel of a width equal to or greater than 600 millimetres exported from the Republic of Korea (Korea) and the Socialist Republic of Vietnam (Vietnam).

The conference was held pursuant to section 269ZZHA of the *Customs Act 1901* (the Act).

In the course of the conference, I was able to ask parties to clarify any argument, claim or specific detail contained in their application or submission. The conference was not a formal hearing of the review, and was not an opportunity for parties to argue their case before me.

I have only had regard to information provided at this conference to the extent that it relates to relevant information within the meaning of section 269ZZK of the Act. Any conclusions reached at this conference are based on that relevant information. Information that relates to some new argument not previously put in an application or submission is not something that the Review Panel may have regard to and, therefore, is not reflected in this conference summary.

At the time of the conference, I advised the participants:

- That the conference was being recorded and transcribed by Express Virtual Meetings Pty Ltd, and that the recording would capture everything said during the conference.

- That the conference was being recorded for the Review Panel to have regard to when preparing a conference summary. The conference summary would then be published on the Review Panel's website.
- Any confidential information discussed during the conference would be redacted from the conference summary prior to publication.

Prior to the conference, participants were provided with a copy of the Review Panel's Privacy Statement. The Privacy Statement outlines who the conference recording and transcript may be disclosed to. The Privacy Statement is available on the Review Panel's website [here](#). The participants indicated that they understood the Privacy Statement and consented to:

- The recording of the conference; and
- The recording being dealt with as set out in the Privacy Statement.

## Discussion

The specific information that the Review Panel sought in this conference was in relation to the confidential information contained in the tables on pages 7,8 and 9 of Attachment B to the HSG application for review. This related to whether the correct MCC codes had been identified in certain columns of the tables.

HSG confirmed that there had been typographical errors in certain of the columns for each of the tables. HSG agreed to provide the corrected information for the confidential version as well as an amended version of the public file copy. In addition, it was noted that certain information in the review application regarding the export models was shown as confidential but is shown in the public version of Report No 558. The Review Panel requested that this be aligned.

The Review Panel queried the fifth item in the model control code structure for HSG dealing with width. At page 28 of Report No 558 only two sub-categories are shown, whereas HSG's shows a third number. HSG advised that this was modified as part of the verification process. The ADC will confirm what is included in this category.

I requested that the participants provide the following information following the conference:

**Australian Government**

**Anti-Dumping Review Panel**

HSG to provide corrected versions of the confidential and public file copies of Attachment B of its review application. HSG provided the corrected versions on 7 February 2022; and

- The ADC to confirm what the sub-categories are for HSG in relation to width.

Following the conference, the ADC confirmed that HSG proposed an additional identifier to the width of the MCC structure. Subsequent to verification, this revision to the MCC structure was accepted by the ADC and is detailed on page 7 of the verification report, linked [here](#).

HSG's MCC sub-categories for width are as follows:

Sub-category	Width
1	< 600mm
2	≥ 600mm to < 1000mm
3	≥ 1000mm
