Anti-Dumping Review Panel

Customs Act 1901

Notice under section 269ZZI

Aluminium Extrusions exported from the People's Republic of China

The Anti-Dumping Review Panel ('Review Panel') has received applications from Goomax Metal Co., Ltd ('Goomax'), Guangdong Xingfa Aluminium Co Ltd ('Xingfa') and Press Metal Aluminium (Australia) Pty Ltd ('PMAA') seeking a review of the Minister for Industry and Innovation and Minister for Science's decision to under section 269ZHG(1)(b) of the *Customs Act 1901* ('the Act') in respect of Aluminium Extrusions (the goods) exported from the People's Republic of China ('Reviewable Decision').

The Reviewable Decision was published on the Anti-Dumping Commission ('ADC') website on 17 October 2025 ([ADN 2025/096](#) refers).

The Review Panel is satisfied that the following grounds are reasonable grounds for the Reviewable Decision not being the correct or preferable decision:

Goomax:

- 1) The Minister's decision on the applicable subsidy margin for Goomax was erroneous, as it was premised on the Commissioner's factual error (mistakenly categorising privately-held suppliers/manufacturers as state-owned) concerning the receipt of a 'Less Than Adequate Remuneration' ('LTAR') subsidy.

Xingfa:

- 1) The Minister erred in constructing Xingfa's normal values by relying on non-arms length transactions between related parties.

PMAA:

- 1) There was no information, or insufficient information supported by evidence, that dumping by PMI had occurred or would be likely to continue or recur if the anti-dumping duties expired.
- 2) The Minister's determination of the normal value was incorrect, which impacted on the alteration of the variable factors and the assessment of the dumping margin.
- 3) There was no information, or insufficient information supported by evidence, that the expiry of anti-dumping measures would lead to, or be likely to lead to, the continuation or recurrence of the material injury that the measures are intended to prevent.

PUBLIC

The Review Panel proposes to conduct a review of the Reviewable Decision in relation to the above grounds.

The goods to which this application relates are:

Aluminium extrusions produced via an extrusion process, of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents), with the finish being as extruded (mill), mechanical, anodised or painted or otherwise coated, whether or not worked, having a wall thickness or diameter greater than 0.5 mm, with a maximum weight per metre of 27 kilograms and a profile or cross-section which fits within a circle having a diameter of 421 mm.

The goods include aluminium extrusion products that have been further processed or fabricated to a limited extent, after aluminium has been extruded through a die. Aluminium extrusion products that have been painted, anodised, or otherwise coated, or worked (e.g. precision cut, machined, punched or drilled) fall within the scope of the goods.

The goods subject to the anti-dumping measures do not extend to intermediate or finished products that are processed or fabricated to such an extent that they no longer possess the nature and physical characteristics of an aluminium extrusion but have become a different product.

Submissions

Interested parties have **30 days** after the date on which this notice is published to provide the Review Panel with a submission. Your submission should indicate your eligibility to make a submission as either an interested party to the Reviewable Decision or as one of the specified entities under section 269ZZJ of the Act.

If your submission contains confidential information, you must provide a public version that can be published on the Review Panel website. Failure to do so will result in your submission not being considered. All information that is confidential or commercially sensitive must be highlighted in yellow in the confidential version of your submission.

You may either email your submission to ADRP@industry.gov.au or mail the submission to:

Anti-Dumping Review Panel Secretariat
GPO Box 2013
Canberra City ACT 2601

Persons wishing to make further inquiries about this review should telephone (02) 6276 1781. Copies of the applications for review, which set out the grounds for seeking review in full, and other documents are available on the public record of the review at www.adreviewpanel.gov.au

Interested parties may wish to subscribe to receive email updates when new content is published on the Review Panel website (above) in relation to this and other reviews. Information on how to subscribe is on the Review Panel website in the section 'Subscribe for updates'.
