

# Conference Summary

## Review No. 175 – Aluminium Extrusions exported from the People’s Republic of China (China)

Panel Member	Jaclyne Fisher OAM
Review type	Review of Minister’s decision
Date	23 March 2026
Participants	Anti-Dumping Commission (ADC): 
Time opened	11:00am AEDT
Time closed	11:35am AEDT

### Summary

The Anti-Dumping Review Panel (Review Panel) opened the conference with an Acknowledgment of Country.

The purpose of this conference was to obtain further information in relation to the reconsideration before the Review Panel in relation to Aluminium Extrusions (the goods) exported from China.

The conference was held pursuant to section 269ZZHA of the Customs Act 1901 (the Act).

In the course of the conference, I was able to ask the ADC to clarify any argument, claim or specific detail contained in the Reinvestigation Report 657 in relation to Goomax Metal Co., Ltd (Goomax) application. The conference was not a formal hearing of the review and was not an opportunity for parties to argue their case before me.

In accordance with section 269ZZHA(2), in making a recommendation under subsection 269ZZK(1), I may have regard to:

- (a) further information provided at this conference to the extent that it relates to “relevant information” within the meaning of section 269ZZK(6) of the Act;
- (b) any conclusions reached at this conference based on “that relevant information”.

At the time of the conference, I advised the participants:

- That the conference was being recorded and transcribed by Microsoft Teams (as facilitated by the Review Panel's Secretariat), and that the recording would capture everything said during the conference.
- That the conference was being recorded for the Review Panel to have regard to when preparing a conference summary. The conference summary would then be published on the Review Panel's website.
- Any confidential information discussed during the conference would be redacted from the conference summary prior to publication.

Prior to the conference, participants were provided with a copy of the Review Panel's Privacy Statement. The Privacy Statement outlines who the conference recording and transcript may be disclosed to. The Privacy Statement is available on the Review Panel's website [here](#). The participants indicated that they understood the Privacy Statement and consented to:

- The recording of the conference; and
- The recording being dealt with as set out in the Privacy Statement.

## Further information requested

The specific information that the Review Panel sought at this conference is set out below:

The Review Panel requires the ADC to provide the new variable factors for Goomax as a result of the Commissioner's finding that Goomax did not source raw materials from suppliers who were either State-invested enterprises or State-owned enterprises (SIEs/SOEs) and not in receipt of the Program 15 subsidy referred to as Less than Adequate Remuneration (LTAR).

Could the ADC please advise the revised variable factors for Goomax noting that the Commissioner's Reinvestigation Report 657 indicated that Goomax did not purchase from SIEs or SOEs and therefore did not benefit from the LTAR subsidy? Given Goomax was still in receipt of other countervailable subsidies, could the ADC advise what the effective rate of duty would be in relation to Goomax?

*The ADC advised that Goomax's variable factors for normal value, export price and non-injurious price remain unchanged. It advised that the Goomax revised unit subsidy amount is [REDACTED] as outlined in its confidential spreadsheet: Reinvestigation Final Report 657 Goomax revised effective rate of duty is 0.9 per cent.*

There was discussion about the variable factors applying to other applicants, noting the information outlined in the table in Anti-Dumping Notice No. 2025/096 and the information provided by the ADC at the 9 January 2026 conference.

The draft conference summary will be provided within one working day, and it is required that the ADC provides comments regarding accuracy and confidential information (if not already identified).
