

Australian Government
Anti-Dumping Review Panel

Customs Act 1901

Notice under section 269ZZI

Hot rolled deformed steel reinforcing bar in lengths exported from Indonesia, Malaysia, Thailand, Türkiye and Vietnam

The Anti-Dumping Review Panel (Review Panel) received applications from Alliance Steel (M) Sdn Bhd (Alliance), Malaysia Steel Works (KL) Bhd (Masteel) and VAS Group Nghi Son Joint Stock Company (VAS) seeking a review of a decision by the Minister for Industry and Innovation to publish a dumping duty notice under sections 269TG(1) and (2) of the *Customs Act 1901* in respect of hot rolled deformed steel reinforcing bar in lengths (the goods) from Indonesia, Malaysia, Thailand, Türkiye and Vietnam (the Reviewable Decision).

The Reviewable Decision was published on the Anti-Dumping Commission's (ADC) website on 22 December 2025 ([ADN 2025/124](#)).

The Review Panel is satisfied that the following ground(s) are reasonable grounds for the Reviewable Decision not being the correct or preferable decision:

Alliance Steel (M) Sdn Bhd (Alliance)

- 1) The Minister erred in calculating a residual exporter dumping margin for Alliance in that the Minister used a flawed calculation of residual export price and normal value by relying on a single sampled exporter's data to determine the residual dumping margin in contravention of subsection 269TACAB(2) of the the Act.

Malaysia Steel Works (KL) Bhd (Masteel)

- 1) The Minister erred in calculating a residual exporter dumping margin for Masteel in that the Minister used a flawed calculation of residual export price and normal value by relying on a single sampled exporter's data to determine the residual dumping margin in contravention of subsection 269TACAB(2) of the the Act.

VAS Group Nghi Son Joint Stock Company (VAS)

- 1) The Minister erred in calculating a residual exporter dumping margin for VAS in that the Minister used a flawed calculation of residual export price and normal value by relying on a single sampled exporter's data to determine the residual dumping margin in contravention of subsection 269TACAB(2) of the the Act.

The Review Panel proposes to conduct a review of the Reviewable Decision in relation to the above grounds.

PUBLIC

The goods to which these applications relate are:

Hot-rolled deformed steel reinforcing bar, commonly identified as rebar or debar, in various diameters up to and including 50 millimetres, containing indentations, ribs, grooves or other deformations produced during the rolling process.

Further information:

The goods include all steel reinforcing bar meeting the above description regardless of the particular grade, alloy content, coating or length.

Exclusions:

Goods excluded from the measures are hot-rolled deformed reinforcing steel in coil form, plain round bar, stainless steel and reinforcing mesh.

Submissions

Interested parties have **30 days** after the date on which this notice is published to provide the Review Panel with a submission. Your submission should indicate your eligibility to make a submission as either an interested party to the Reviewable Decision or as one of the specified entities under section 269ZZJ of the Act.

If your submission contains confidential information, you must provide a public version that can be published on the Review Panel website. Failure to do so will result in your submission not being considered. All information that is confidential or commercially sensitive must be highlighted in yellow in the confidential version of your submission.

You may either email your submission to ADRP@industry.gov.au or mail the submission to:

Anti-Dumping Review Panel Secretariat
GPO Box 2013
Canberra City ACT 2601

Persons wishing to make further inquiries about this review should telephone (02) 6276 1781. Copies of the applications for review, which set out the grounds for seeking review in full, and other documents are available on the public record of the review at www.adreviewpanel.gov.au

Interested parties may wish to subscribe to receive email updates when new content is published on the Review Panel website (above) in relation to this and other reviews. Information on how to subscribe is on the Review Panel website in the section 'Subscribe for updates'.

The reports of the original investigation are available on the ADC website at www.adcommission.gov.au
