Commissioner
Australian Trade Remedies Commission
GPO Box 2013
Canberra ACT 2601

Dear Commissioner,

Review No 184: Certain flat rolled steel products exported to Australia from the People's Republic of China and the Republic of Korea

The Anti-Dumping Review Panel (Review Panel) has today initiated a review of the decision of the Minister for Industry and Innovation and Minister for Science made under sections 269TG(1) and (2) of the *Customs Act 1901* in respect of certain flat rolled steel products exported to Australia from the People's Republic of China and the Republic of Korea (the Reviewable Decision). The applicants for this review were Baosteel Zhanjiang Iron & Steel Co., Ltd and Baoshan Iron & Steel Co., Ltd (the Applicants).

A copy of the notice is attached for your information, and your attention is drawn to the six reviewable grounds accepted by the Review Panel. These relate to the Commission's findings in relation to the determination of the normal value for the Applicants and to whether the dumped goods caused material injury to the Australian industry.

For the purpose of obtaining the relevant information in relation to this review, the Review Panel requests that the Australian Trade Remedies Commission (Commission) provide the following documents:

1. Any confidential attachments to the Statement of Essential Facts (SEF 688) relevant to the Applicants' grounds of review in the applications (assuming SEF 688 is otherwise available on the public record).

2. Any submissions made by interested parties to the Commission commenting on SEF 688, including confidential attachments relevant to the grounds of review in the applications.

3. The confidential attachments to Final Report 688 (assuming the full Final Report is otherwise available on the public record) relevant to the Applicants' reviewable grounds, and in particular, Confidential Attachments 1, 4, 5, 6, 9,10,11,26, 27,28, 30,31,32,33,34.

4. Any other *relevant information* relating to the grounds of review raised by the Applicants, including, where applicable:

    - If the grounds relate to material injury and causal link, please provide the Australian industry verification visit report and any confidential attachments and any other confidential attachments relevant to these findings.

    - If the grounds relate to normal value, please provide the relevant exporter REQ, visit reports and any confidential information or spreadsheets sent to the exporter regarding the calculation of normal value and dumping margins.

5. Any other confidential records or documents containing information about the verification reports or model matching for the normal value assessment.

Confidential and Public Commission Documents

Please provide only confidential versions of the requested documents. Public versions available on the Commission's Electronic Public Record are not required.

Due date for documents

Panel Member Jaclyne Fisher OAM requests that the Commission provide these documents no later than **25 November 2026.**

Provision of documents

Please upload the documents to the Commission Document Drop-Box folder below and notify the Secretariat when the files are ready for transfer to the Review Panel.

[redacted]

Tentative Conference

The Panel Member requests that a tentative conference with the Commission be scheduled for the week after the documents are provided. After the Review Panel has considered the confidential documents, the Secretariat will confirm whether the conference will proceed and outline any further information required.

Please inform the Secretariat of the Commission's availability for the conference.

Regards,

Review Panel Secretariat on behalf of Panel Member Jaclyne Fisher OAM
