Dear Member Fisher,

ADRP Review No. 138: A4 Copy Paper exported from the People's Republic of China, the Republic of Indonesia (except by PT. Indah Kiat Pulp & Paper Tbk, PT. Pabrik Kertas Tjiwi Kimia Tbk and PT. Pindo Deli Pulp & Paper Mills) and the Kingdom of Thailand

We refer to our submissions in the above matter to you dated 1 October 2021. There was some content of the submissions removed due to confidentiality claimed by the applicants.

We set out below a summary of that content. The paragraph numbers below correspond to the same paragraph numbers in our submissions dated 1 October 2021

Ground 1 - The 'ascertained export price'

18. Evidence before the commission showed which entities produced and sold the goods and to whom.

30. The ascertained export price was determined as the price between RAK and AFEM and this paragraph describes how interim duties were calculated.

Ground 2 - The 'ascertained normal value'

36. In a letter to the ADRP dated 31 August 2021, APRIL's legal representatives referred to normal value adjustments pursuant to section 269TAC(8) and a method of price calculation. The commission raises an apparent absence of evidence or substantiation about APRIL's method of calculation.

PUBLIC RECORD

38. The commission requested that APRIL give the calculation relating to a selected invoice and evidence for each value used in the calculation. APRIL gave the calculation but did not provide evidence. The commission could not identify an amount claimed by APRIL.

41. During the verification of APRIL, they provided confidential information related to an export price calculation.

7 October 2021.
