

Customs Act 1901 – Part XVB

Hot Rolled Structural Steel Sections

Exported from Japan, the Republic of Korea, Taiwan and the

Kingdom of Thailand

Findings in Relation to a Dumping Investigation

Public notice under subsections 269TG (1) and (2) of the Customs Act 1901

The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed the investigation into the alleged dumping of hot rolled structural steel sections (“the goods” or “HRS”), exported to Australia from Japan, the Republic of Korea (Korea), Taiwan and the Kingdom of Thailand (Thailand).

The goods are classified to following tariff subheadings in Schedule 3 of the *Customs Tariff Act 1995*:

- 7216.31.00 statistical code 30;
- 7216.32.00 statistical code 31;
- 7216.33.00 statistical code 32; and
- 7216.40.00 statistical code 33.

A full description of the goods is available in Anti-Dumping Notice (ADN) No. 2013/75, which is available on the internet at www.adcommission.gov.au

The Commissioner reported his findings and recommendations to me in *Anti-Dumping Commission Report No. 223* (REP 223). REP 223 outlines how the Anti-Dumping Commission (the Commission) carried out the investigation and recommends the publication of a dumping duty notice in respect of the goods.

Notice of my decision was published in *The Australian* newspaper and the *Commonwealth of Australia Gazette* on 20 November 2014.

Particulars of the dumping margins established and an explanation of the methods used to compare export prices and normal values to establish the dumping margins are also set out in the table below.

Country	Manufacturer/ exporter	Dumping margin and effective rate of duty	Duty Method	Method to establish dumping margin
Japan	JFE Bars and Shapes Corporation	12.15%	Ad valorem	Weighted average export prices were compared with corresponding normal values over the investigation period in terms of s.269TACB(2)(a) of the <i>Customs Act 1901 (the Act)</i> .
	Uncooperative Exporters	12.23%	Ad valorem	
Korea	Hyundai Steel Company	2.52%	Ad valorem	
	Uncooperative Exporters	3.24%	Ad valorem	
Taiwan	TS Steel Co Ltd	4.68%	Ad valorem	
	Tung Ho Steel Enterprise Corporation	2.20%	Ad valorem	
	Uncooperative Exporters	7.89%	Ad valorem	
Thailand	Siam Yamato Steel Co Ltd	18.28%	Ad valorem	
	Uncooperative Exporters	19.48%	Ad valorem	

NB: Pursuant to s. 12 of the Customs Tariff (Anti-Dumping) Act 1975 (the Dumping Duty Act), conversion of securities to interim duty will not exceed the level of security taken.

The above table lists the effective rate of duty which in this case are equal to the dumping margins found, as the lesser duty rule pursuant to s. 8(5B) of the Dumping Duty Act in this case does not come into effect.

The effective rate of duty has been calculated in accordance with the ad valorem duty method.

The investigation as it relates to Feng Hsin Iron and Steel Co Ltd has been terminated, and imports to Australia manufactured by Feng Hsin Iron and Steel Co Ltd are free of dumping duty.

I, ROBERT CHARLES BALDWIN, Parliamentary Secretary to the Minister for Industry, have considered, and accepted, the recommendations of the Commissioner, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings in REP 223.

I am satisfied, as to the goods that have been exported to Australia, that the amount of the export price of the goods is less than the normal value of those goods and because of that, material injury to the Australian industry producing like goods might have been caused if the security had not been taken. Therefore under s. 269TG(1) of the Act, I DECLARE that s. 8 of the Dumping Duty Act applies to:

- (i) the goods; and
- (ii) like goods that were exported to Australia after 14 March 2014 (when the Commissioner made a preliminary affirmative determination under s. 269TD of the Act that there appeared to be sufficient grounds for the publication of a dumping duty notice) but before the publication of this notice.¹

¹ Within the time limitations of section 45 of the Act.

I am also satisfied that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods and because of that, material injury to the Australian industry producing like goods has been caused or is being caused. Therefore under s. 269TG(2) of the Act, I DECLARE that s. 8 of the Dumping Duty Act applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from Japan, Korea, Taiwan (except for exports by Feng Hsin Iron and Steel Co Ltd) and Thailand.

The considerations relevant to my determination of material injury to the Australian industry caused by dumping are the size of the dumping margins, the effect of dumped imports on Australian industry prices and the consequent impact on the Australian industry including reduced revenues, price depression, price suppression, reduced profits and reduced profitability.

In making my determination, I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of dumped goods, and have not attributed injury caused by other factors to the exportation of those dumped goods.

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel, in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

Particulars of the export prices, non-injurious prices, and normal values of the goods (as ascertained in the confidential tables to this notice) will not be published in this notice as they may reveal confidential information.
