Dear Mr McDonald

**For Public File**

**Hot Rolled Plate Steel exported from the People's Republic of China, the Republic of Indonesia, Japan and the Republic of Korea – Dongkuk Exports to Australia**

I refer to BlueScope Steel Limited's ("BlueScope") submission dated 20 February to The Anti-Dumping Review Panel ("ADRP") concerning applications for review made by Dongkuk Steel Mill Co. Ltd ("DSM") and G S Global Corporation ("GSG").

BlueScope would like to highlight with the ADRP evidence available to the Anti-Dumping Commission (the "Commission") during its investigation confirming that goods exported to Australia by DSM were manufactured and sold in accordance with Australian Standard ("AS") 3678 for hot rolled steel plate (AN example is contained in the confidential attachment). The use of Australian Standards, in this instance AS3678, is unique to Australia and New Zealand. Australian Standards are not referenced in Asia, USA or European steel markets. As the DSM exported goods were manufactured to AS3678, tested and then documented on DSM Test Certificates accompanying the sale of these goods, it was correct for the Commission to confirm that DSM had prior knowledge that the goods as sold to GSG would be exported to Australia and that the correct export price for the exported goods was the price from DSM to GSG.

BlueScope reinforces its position as detailed in its 20 February 2014 submission that the Commission correctly determined DSM as the exporter of the goods the subject of the inquiry and that the relevant export price was from the DSM (the manufacturer) to GSG (the agent).

If you have any questions concerning this letter or the attached offer, please do not hesitate to contact me on (02) 4275 3859.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Alan Gibbs".
