Brussels, 13 August 2014

**ANTI-DUMPING INVESTIGATION BY THE AUSTRALIAN GOVERNMENT ON IMPORTS OF  
PROCESSED TOMATO PRODUCTS**

**Written submission by the European Commission to the**

**Anti-Dumping Review Panel ('ADRP')**

Dear Ms Fitzhenry,

With reference to your letter of 12 August 2014, the European Commission would like to submit the following:

The European Commission and other interested parties have made submissions in the framework of this re-investigation. The submission of the European Commission raises many substantive issues relating in particular to the injury and causality analysis of the original investigation. These issues may have an important impact on the findings of the ADRP. We presume that submissions of other parties contain similar arguments of substance.

Thus, it seems important that parties are granted the opportunity to provide further comments in response to the conclusions that the ADRP will have drawn and explained in the re-investigation report.

Yours sincerely,
