Email: adrp@industry.gov.au

Dear Sir:

## **Response to the ADRP's Requirement of Further Information**

This submission is made on behalf of Pilotdoer Wheel Co.,Ltd ("Pilotdoer") and in response to the Anti-Dumping Review Panel's ("ADRP") requirement of further information which raised in the ADRP's letter on 20 November 2015.

Regard to the further information;

1. Please refer to the Exhibit 1: Power of Attorney for the authorization by Pilotdoer.
2. Please refer to the Exhibit 2: Public notification of the reviewable decision for the copy of the reviewable decision.
3. In relation to a statement identifying what the applicant considers the correct or preferable decision should be.

Pilotdoer considers that the correct profit rate used to construct Pilotdoer's normal values should be 3.31%, and accordingly the correct dumping margin of Pilotdoer should be 2.8%, then the correct effective rate of combined interim countervailing duty and interim dumping duty of Pilotdoer should be 4.3%.

Meanwhile Pilotdoer submits the detailed dumping margin calculations on the basis of the Anti-Dumping Commission's methodology in **【Appendix 2, Appendix 3 and Appendix 4】** [\[Confidential information including export sales and CTMS data, which cannot be provided in the non-confidential summary\]](#) as a reference.

Yours sincerely

Paul Chao
