CANBERRA CITY ACT 2601

Dear Ms Blumberg

**CERTAIN ALUMINIUM ROAD WHEELS EXPORTED TO AUSTRALIA
FROM THE PEOPLE'S REPUBLIC OF CHINA**

I note that the reinvestigation report in relation to aluminium road wheels exported to Australia from China is currently due to the Anti-Dumping Review Panel (ADRP) by Thursday 31 March 2016.

As you are aware, I was provided with a timeframe of 38 days to conduct a reinvestigation of certain findings and report to the ADRP as required.

I request an extension of 15 days to Friday 15 April 2016 to provide this report to the ADRP. This extension is requested upon the following grounds:

- I have been provided with a period of 38 days which translates to 25 days excluding weekends and public holidays.
- The complexity of calculations and data submitted in respect of this reinvestigation requires the Anti-Dumping Commission (the Commission) to exercise particular care and diligence.
- The Commission undertakes a rigorous panel and clearance process in order that recommendations made are appropriate and correct based on the facts. This process must allow for adequate time for internal review and where required, modifications and amendments.
- In order to undertake an appropriate and accurate reinvestigation that is fair to all interested parties, particularly the applicants concerned, the Commission requires a longer period than 38 days.

Attached is an indicative ADC internal timeline plan that this extension is based upon (**Confidential Attachment A**).
