Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: INCITEC FERTILISERS OPERATIONS PTY LTD

Other project proponent(s):

Project details

Name: Gibson Island Green Ammonia Project

Location: 282 Paringa Road, Gibson Island, Murrarie, QLD 4172

Type: Other productive facility

Purpose: Upgrade existing facility

Capital expenditure: \$500 million - \$1 billion

Description: The Project has been identified as an opportunity to develop a green ammonia hub in Brisbane, Queensland through construction of a green hydrogen production facility alongside an existing gas-based facility owned and run by Incitec, located on Paringa Road, Murrarie. Incitec's facility shall convert FFI's green hydrogen into green ammonia for both domestic and export markets. The Project consists of two parts: 1. FFI Hydrogen Facility: Construction of a new green hydrogen facility to supply feed for conversion into green ammonia at Incitec's facility; and 2. Incitec Ammonia Facility: Retrofitting the existing ammonia plant to receive green hydrogen, instead of natural gas feedstock. Australian entities will have full, fair and reasonable opportunity to tender for supply of goods or services for the Project either directly with the Proponent, or in a subcontracting capacity with the Proponent's major contractors. The Proponent's major contractors will be obligated in their contracts to comply with the Proponent's AIP Plan requirements (to the extent applicable and relevant to their scope) and report to the Proponent on their compliance Procurement Activities Timeframe: Procurement activities are scheduled to commence in the Q4 2022. FID is expected to occur in Quarter 2 2023. Construction Activities Timeframe: Construction is scheduled to commence Quarter 4 2023. The Green Ammonia facility is expected to be operational by Quarter 3 2024.

Completion date: 30 Sep 2024

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Site Preparation	Yes	Yes	
Process Technology Solution and design of ammonia plant	Yes	Yes	
Wastewater Treatment & Effluent Drainage	Yes	Yes	
Raw Water Supply	Yes	Yes	
Substation/Switchyard	Yes	Yes	
Non-Process Infrastructure	Yes	Yes	
Wharf/Port Upgrades	Yes	Yes	
Telecommunications/IT and Security systems	Yes	Yes	
33kv Switchgear & Switchroom	Yes	Yes	
HV Transformers	Yes	Yes	
Construction and assembly of long lead item package	Yes	Yes	
Fabrication of Process Equipment	Yes	Yes	

* An Australian entity is an entity with an ABN or ACN

- International

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name GI Green Ammonia
Contact person position Procurement
Phone number 0738679700
E-mail GIGreenAmmonia@incitecpivot.com.au

Project proponent website: www.incitecpivot.com.au

Project opportunities website: www.incitecpivot.com.au

Supplier engagement and communication actions :

- Promote project opportunities through industry associations
- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities
- Directly contact suppliers with information on project opportunities and bid processes

Building Australian industry capability

Supplier capability development actions:

- Provide market intelligence to suppliers
- Encourage joint ventures and alliances between suppliers
- Provide Prequalification advice

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Facilitate strategic partnering and joint ventures between Australian and international suppliers
- Provide references for high performing suppliers

Feedback process for unsuccessful bidders:

The Proponent, will offer written feedback with advice that a bid was not successful. In particular, the Proponent will do the following with respect to such feedback: • provide information on recommended development activities to increase their capabilities and capacity on future operational opportunities, which may include participation in government funded programs such as the Entrepreneurs' Programme, to access expert consultations to assess the unsuccessful bidder's business and identify specific areas of improvement. The Programme will then work with the unsuccessful bidder to find simple, smart and effective ways to address the shortfalls identified in the Facility's pre-qualification/tendering process and achieve their business goals. • encourage adoption of Australian Standards requirements for OH&S, quality and environmental qualifications. Where required, provide general feedback on the strengths and weaknesses of bids, suggestions for improving the quality of submissions and how to improve competitiveness for future opportunities. In addition, the Project's procurement entities will be contractually required to offer feedback to unsuccessful Australian tenderers, which will include recommendations of relevant training, skills, capability and capacity development where relevant.
