AIP Plan reference code: 3QTNB9GF

Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: The Trustee for Palmer Wind Farm Project Trust

Project details

Name: Palmer Wind Farm

Location: South Australia

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$500 million - \$1 billion

Description: The proposed PMWF will consist of up to 40 wind turbines, with a maximum tip height of 220 metres above ground level, and associated balance of plant totalling up to 288MW of installed capacity. The site will consist of two substations, access tracks, O&M facility, overhead power line, underground cabling, and public road upgrades.

Completion date: 31 Dec 2026

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Wind Turbines (Nacelles, Hubs & Blades)	Yes	Yes	
Wind Turbine Towers	Yes	Yes	
Wind Turbine Foundation Bolts	Yes	Yes	
Quarry Materials	Yes	No	
Concrete Supply	Yes	No	
Reinforcing Steel	Yes	Yes	
Electrical Cabling	Yes	Yes	
Electrical Transmission Line Poles & Towers	Yes	Yes	
Electrical Substation Equipment	Yes	Yes	
International Shipping & Logistics	Yes	Yes	
Domestic Transport & Logistics	Yes	Yes	
Earthmoving & Excavation	Yes	No	
Design & Construction of Roads & Hardstands	Yes	No	
Construction of Wind Turbine Foundations	Yes	No	
Construction of Underground Cabling	Yes	No	
Construction of Overhead Transmission Lines	Yes	No	
Construction of Electrical Substations	Yes	No	
Erection & Installation of Wind Turbines	Yes	Yes	
Engineering & Design Consultancy Services	Yes	Yes	
Project Management Services	Yes	Yes	

* An Australian entity is an entity with an ABN or ACN

Project standards:

Australian
International

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name Rachel Dawson
Contact person position Head of Commercial
Phone number 0475236328
E-mail Rachel.Dawson@tiltrenewables.com

Project proponent website: <https://www.tiltrenewables.com/assets-and-projects/Palmer-Wind-Farm/>

Project opportunities website: To provide opportunities for local businesses, the Palmer Wind Farm will be listed on the Industry Capability Network (ICN) Gateway once Tilt Renewables has selected its preferred wind turbine supplier and other construction companies for the project. The ICN Gateway webpage will publish individual supply opportunities for key goods and services as they arise, including supply opportunities for key goods and services to be offered by the head contractor(s). Tilt Renewables will manage and share the Tilt Renewables Goods and Services database for the Palmer Wind Farm project (<https://www.tiltrenewables.com/assets-and-projects/Palmer-Wind-Farm/>) with the successful tenderer(s). Tilt Renewables will ensure (as a condition of the tendering process) that the wind turbine manufacturers and construction contractors run their own procurement and sub-contracting processes that are compliant with this AIP Plan. Tilt Renewables plans to do this by communicating that the successful tenders will be required to have and maintain an up-to-date website where they publish their pre-qualification requirements and bids.

Supplier engagement and communication actions :

- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities
- Directly contact suppliers with information on project opportunities and bid processes
- Project Website

Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Provide market intelligence to suppliers
- Encourage joint ventures and alliances between suppliers

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Provide references for high performing suppliers

Feedback process for unsuccessful bidders:

Tilt Renewables via its procurement entities will provide feedback to unsuccessful Australian entities on the strengths and weaknesses of bids and how to improve competitiveness in future procurements. The procurement entities will not just outline the requirements for qualification into their supply chains, they will also provide guidance on how entities can meet the requirements by recommending additional training and accreditation. The procurement entities will provide a written offer to the unsuccessful Australian entity to provide feedback regarding their proposal.

Australian Industry Participation Plan Summary - Operations Phase

Nominated facility operator: Tilt Renewables Australia Pty Ltd atf Palmer Wind Farm Project Trust

Facility details

Name: Palmer Wind Farm

Location: South Australia

Type: Electricity facility

Key goods and services

Indicative list of key goods and services to be acquired for the new facility:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Quarry Materials	Yes	No	
Operations and Maintenance Wind Farm	Yes	Yes	
Operations and Maintenance Connection Assets	Yes	Yes	
International Shipping & Logistics	Yes	Yes	
Domestic Transport & Logistics	Yes	Yes	
Earthmoving & Excavation	Yes	No	
Engineering & Design Consultancy Services	Yes	Yes	
Project Management Services	Yes	No
