

# Newmont Mining Australian Industry Participation (AIP) Plan Summary

## 1. Project Details

**Designated project proponent:** Newmont Mining Services Pty Ltd

**Project name:** Tanami Expansion 2 (TE 2) Project

**Description of the project:** Newmont Mining has mine operations located in the Tanami Desert of the Northern Territory of Australia. These operations comprise the Granites Processing plant, located 560 km north-west of Alice Springs and 940 km south west of Darwin and Dead Bullock Soak (DBS), located 42 km to the west of The Granites Processing Plant. The TE 2 project aims to provide a deepening and expansion of the Callie Underground Mine at DBS to access ore at depth and increase production to 3.2 million tonnes per annum. Procurement activities are expected to commence in mid-2019 with construction commencing in early 2020 subject to a final investment decision in late 2019.

**Estimated project value:** \$866 to \$2,3000 million

**Project location:** Tanami Desert of the Northern Territory of Australia

**Link to project information:** <https://www.newmont.com/suppliers/default.aspx>

**Project contact for procurement information:** Mr Daud Hegarty, phone 08 9423 6100, mobile 0418 836 033 email [daud.hegarty@newmont.com](mailto:daud.hegarty@newmont.com)

**Other project proponents involved in the project:** Newmont Tanami Pty Ltd

## 2. Opportunities to supply Goods and Services

Expected opportunities	Opportunities for Australian entities	Opportunities for non-Australian entities
<b>Goods</b>		
Water Treatment Equipment Supply RO and Conditioning Plant to clean up bore water"	Yes	No
Rope Sheaves; Supply and Delivery of hoist sheaves	Yes	Yes
Rope Handling Equipment	Yes	Yes
Head and Tail Ropes	Yes	Yes
Rope Attachments	Yes	Yes
Skips, Bridles & Flasks	Yes	Yes
Cage & Counter Weight	Yes	Yes
Shaft Steel and Guides; supply, fabricate & galvanise	Yes	Yes
Rock Breaker	Yes	Yes
Gyratory Crusher	Yes	Yes
Apron Feeders	Yes	Yes
Conveyors; supply and delivery of conveyors (excluding components, U/G and surface)	Yes	No
Headframe; fabricate and supply Headframe for installation under C2014 Shaft Equipping	Yes	Yes
Horizontal Vacuum Belt Filter; complete belt filter package	Yes	Yes
Intertank Screens; fabricate and supply screens for the absorption tanks	Yes	No
Linear Screen fabrication and supply screens for the leach tanks	Yes	No
Tanks - Surface; supply 5 x water tanks, 1 x brine tanks; weld strakes onsite	Yes	No
Conveyor Components (drive, belt etc)	Yes	Yes

Instruments; supply	Yes	No
HV cables; supply	Yes	No
Agitators; supply of agitators for Granites (processing plant) tanks	Yes	No
Solution Pumps; supply non slurry pumps	Yes	No
Compressors; supply	Yes	No
Electrical HV Switchgear; GE Switchgear for DBS and processing plant switchrooms	Yes	No
Drum Winder; supply	Yes	Yes
Koepe Winder; supply	Yes	Yes
Slurry Pumps; supply	Yes	No
Valves; supply manual and actuated valves	Yes	No
Specialised Valves; pressure reducing valve skids, fabricate & supply	Yes	Yes
U/G dirty water pumping system	Yes	No
Cranes, winches and hoists; supply	Yes	Yes
Diesel Dispensing Units; supply, delivery and onsite installation/commissioning supervision	Yes	No
U/G Foam Fire Suppression; supply and install of the fire system	Yes	Yes
Concrete Batch Plant; construct and operate new plant inclusive of water storage (~20 or 30kL subject to batch plant batching rates).	Yes	Yes
Headframe Elevator (Passenger Lift)	Yes	No
Temporary power supply for Surface Construction	Yes	No
MCCs; supply motor control centres and install into switchrooms	Yes	No
Transformers for DBS and Processing Plant	Yes	Yes
PLC / SCADA / Comms; supply	Yes	No
Lighting; calcs & layouts and supply of fittings	Yes	No

Electrical Switchrooms; manufacture, test and supply switchrooms and internal equipment for DBS and Processing Plant	Yes	Yes
LV cables and Fibre Optic	Yes	No
Piping Supply; HDPE and Steel (Galv) pipe	Yes	No
Fuel Lines; supply	Yes	No
Underground Refuge Chamber	Yes	No
Stacker Conveyor; supply radial stacker	Yes	Yes
Headframe and Shaft Arresting Devices; supply, deliver and supervise installation and commissioning	Yes	Yes
Structural Steel; fabrication of the Plat, flask loading, shaft bottom and cranes structural steel work	Yes	Yes
Vibrating Feeder and Head Chute; supply & deliver	Yes	Yes
Dust Suppression system	Yes	Yes
Underground Temporary Power	Yes	No
<b>Works and Services</b>		
Surface Generators for U/G	Yes	No
Bulk Earthworks and Terracing	Yes	No
Site Buildings (stores, workshop warehousing etc including Conc & E&I)	Yes	No
Pre-fabricated Buildings (supply and install incl. Conc & services)	Yes	No
Production Raisebore (Equipping) includes Headframe & Headframe Elevator install, controls	Yes	Yes
Village Upgrade; to supply and install prefab buildings for new DBS camp or extension to existing Granites camp.	Yes	No
Surface E&I works (excl. Winder House, Headframe and Conveyors)	Yes	No
Underground Works (Vertical Package); install conveyors, crusher, SMP, C and E&I	Yes	Yes

Service Holes Drilling; drilling of service holes.	Yes	No
Slick Line Installation; fabricate and supply Permanent Slick Line. Includes delivery and commissioning assistance	Yes	No
UG Fuel Line installation; install underground fuel system	Yes	No
Construction of Underground Bins and Silo (vertical boring)	Yes	Yes
Refrigeration Plant; supply & construct	Yes	No
Surface Tanks Install Surface tanks at DBS. Tanks to be welded out onsite	Yes	No
Process Plant Construction, includes controls (modifications)	Yes	No
Water Bore Equipping	Yes	No

Disclaimer: The information provided in the table above is based on an initial assessment by the company. Any questions or issues should be raised with the project contact.

**Explanation for item(s) in list above where it is indicated 'No Opportunities for Australian entities'**

Not Applicable

**3. Standards to be used in the project**

- All project supplies are required to meet the applicable Australian Standard.

**4. AIP activities to be undertaken by the Project Proponent**

Newmont Mining will ensure:

- 1. Details of the opportunities available to local industry are published on ProjectConnect;
- 2. Industry bodies are consulted;
- 3. Industry briefings are held;
- 4. Local suppliers are contacted directly for specific opportunities likely to be within their capability.

**5. AIP activities to be undertaken by procurement entities**

Newmont Mining will utilise the following systems to assist with the identification of local vendors / suppliers / contractors as follows:

- Newmont Mining's extensive Supplier database, in conjunction with the market knowledge and experience held by senior project team members, will be used to identify those local companies able to supply goods and/or services commensurate with the quality, safety, environmental, reliability and delivery standards and objectives of the scope(s) of work;

- Utilise ICN Gateway and its national platform to identify companies able to supply goods and/or services commensurate with the quality, safety, environmental, reliability and delivery standards and objectives of the scope(s) of work;
- Utilise Supply Nation and its database of Indigenous certified vendors / suppliers / contractors; and
- if applicable, any other bodies similar to the above which are identified as providing avenues to connect with and provide opportunities to Australian entities.
