* An Australian supplier means an entity that has an ABN or an ACN

Disclaimer: The information provided in the table above is based on an initial assessment by the company. Any questions or issues should be raised with the project contact.

- Australian, International and Other standards and certifications will be required for the key goods and services in this project.

3. Communicating and providing opportunities

- Project website OR Project supplier portal
- Direct contact with Australian industry (phone/email/letter)
- Liaison with vendor identification agencies
- Make tender documents available to all possible suppliers at the same time
- Allow reasonable and equal time for submissions/responses
- Notify vendor identification agencies on upcoming supply opportunities
- Include requirement in tender documents that successful tenderers comply with AIP plan
- Include contractual arrangements with suppliers to outline AIP arrangements
- Require EPC or EPCM company to engage with and involve Australian industry
- All tenders from Australian and overseas suppliers will be assessed on the same basis
- The organisation will ensure all AIP plan obligations will flow down to contractors and subcontractors

4. Facilitating future opportunities

- Brief procurement managers on the capabilities and achievements of project suppliers
- Introduce project suppliers to global companies or suppliers
- Communicate with global supply chain managers and procurement agents about Australian industry capability
- Provide references for high performing suppliers
- Provide unsuccessful tenderers with appropriate feedback to encourage future performance

5. Implementation resources

- The organisation will record and/or retain evidence to demonstrate implementation of the approved AIP plan
- Develop and implement standard contractual arrangements with suppliers to give Australian industry opportunities to participate
