Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: The Trustee for Marri WF Unit Trust

Project details

Name: Marri Wind Farm

Location: Dandaragan, WA

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$1 billion - \$2 billion

Description: The Marri Wind Farm is an up to 550 MW project situated approximately 120 km north of Perth within the Shire of Dandaragan Local Government Area, in the northern Wheatbelt region of Western Australia. The Project encompasses approximately 12,500 ha of agricultural land with areas of remnant native vegetation. The Project involves the construction of up to 82 wind turbines that may extend up to 275m in height. The Project includes wind turbine generators, internal access tracks, electrical cabling, temporary construction areas, substation, operations and maintenance facilities, permanent meteorological monitoring masts, internal transmission lines and other ancillary infrastructure. Turbine Supply and Install Procurement: 14/03/25 – Prepare and release expression of interest for TSI OEM 11/04/25 – EOI deadline 15/08/25 – EOI evaluation and shortlist to 3 01/12/25 – Issue TSI early works and PPR 23/02/26 – Issue TSI ITT and commence contractual negotiations 29/01/27 – TSI contract executed and NTP Balance of Plant Procurement: 26/09/25 – Early engagement with BOP contractors 17/10/25 – Issue BOP ECI PPR and ITT 12/02/26 – Selection of ECI contractor, commence ECI and negotiations 29/01/27 – BOP contract executed and NTP Construction: 10/03/27 – Commence works on site 01/11/27 – Grid power supply 12/11/27 – First turbine commissioned 29/09/28 – Final turbine commissioned 20/09/29 – COD The project will no receive any direct Australian Government funding, grant or investment, however we intend to submit the project into the CIS Tender 5 - WEM Generation.

Completion date: 20 Sep 2029

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Turbine Supply and Install	Yes	Yes	
Balance of Plant	Yes	Yes	

* An Australian entity is an entity with an ABN or ACN

Project standards:

Australian
International

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name Linden Blair
Contact person position Head of Power Development (West Coast)
Phone number 0455983779
E-mail linden.blair@alintaenergy.com.au

Project proponent website: <https://www.marriwindfarm.com.au/>

Project opportunities website: <https://gateway.icn.org.au/projects/15745>

Supplier engagement and communication actions:

Promote project opportunities through industry associations
Engage with vendor identification agencies on project opportunities and bid processes
Conduct supplier information briefings on project opportunities and bid processes
Issue media releases or ASX announcements on project developments and opportunities

Building Australian industry capability

Supplier capability development actions:

Recommend suppliers undertake training and/or accreditation
Encourage joint ventures and alliances between suppliers

Global supply chain integration actions:

Provide references for high performing suppliers

Feedback process for unsuccessful bidders

The project proponent will ensure that its procurement entities offer, and if requested, provide feedback to Australian entities whose bids to supply key goods or services for the project have not been successful. Feedback will include recommendations about any relevant training, skills capability and capacity development.
