Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: YANCO DELTA WF PROJECT PTY LTD

Project details

Name: Yanco Delta Wind Farm

Location: Near intersection of Mabins Well Road and Wilson Road, Jerilderie NSW

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$500 million or more

Description: Yanco Delta is a 1.5GW wind farm consisting of up to 208 wind turbines, the site is located approximately 10km north-west of Jerilderie in New South. The project development area spans approximately 33,000 hectares between Jerilderie and Coleambally, crossing both the Murrumbidgee and Edward River Council areas. It is strategically positioned near key transmission infrastructure including the Dinawan substation and forms part of the South West Renewable Energy Zone (SW REZ). Yanco Delta was successful in obtaining Access Rights under the Access Rights Tender process managed by EnergyCo in 2024, with transmission access rights subsequently secured in 2025. Origin (via its SPV Yanco Delta WF Project Pty Ltd) continues to progress a range of development activities including but not limited to obtaining all project approvals, appointment of prime contractors, landowner and stakeholder engagements which are all supporting a Final Investment Decision (FID) on the project, which is currently targeted for the middle of the 2027 financial year. The project is then expected to take 4 years to construct, with commissioning and testing of the facility to be undertaken sequentially commencing in stages as soon as it is practicable to do so. A high level schedule is provided below for reference: Financial Investment Decision: December 2026 Construction Commences: January 2027 Commissioning Commences: July 2028 Handover to Operations: December 2030 Operations Conclude: December 2060

Completion date: 10 Dec 2030
