Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: WOODSIDE ENERGY LTD.

Project details

Name: Scarborough Project

Location: Carnarvon Basin, approximately 375 km west-north-west of the Burrup Peninsula WA

Type: Petroleum facility

Purpose: Establish new facility

Capital expenditure: \$500 million or more

Description: Woodside Energy Ltd is the Project Proponent as Operator for and on behalf of the Scarborough Joint Venture Participants. The Scarborough gas field contains approximately 11.1 Tcf (2C, 100%) of gas and is located in the Carnarvon Basin, ~380km west-north-west of the Burrup Peninsula in Western Australia. The offshore resource would be developed with up to 13 daisy-chained subsea, high-rate gas wells tied back to a semi-submersible floating production unit moored in 900metres of water close to the Scarborough field. The proposed ~40,000 tonne production unit topsides will have processing facilities for gas dehydration and compression to enable the export of gas to shore. Gas would be transported through a ~434km pipeline to an existing onshore LNG processing facility on the Burrup Peninsula. The upstream development will be designed for 7-9 Mtpa capacity (100% project, incl. 1Mtpa of domestic gas). The Scarborough contracting strategy has been developed around 4 main work elements: 1. Drilling & Completions 2. Supply & Installation of Subsea Hardware, including Umbilicals, Risers & Flowlines 3. Engineering, Procurement, Construction, Installation and Commissioning of a Semi-Submersible Floating Production Unit 4. Export Trunkline (incl. engineering, line pipe supply, coating and installation and seabed intervention and shore crossing) Where applicable, for each work element, successful Tier 1 contractor(s) assume responsibility as the Procurement Entity acting on behalf of Woodside as the Project Proponent. For all itemised packages that result in a sub-contract to the Procurement Entity, the Procurement Entity will be required to conduct procurement activities in line with actions outlined in this plan, providing full, fair and reasonable opportunity for Australian entities to participate where capable and competitive. Target for RFSU is H2 2026. Targets are subject to all necessary JV approvals, regulatory approvals &/or appropriate commercial arrangements.

Completion date: 31 Dec 2026

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Drilling & Completions	Yes	Yes	
Subsea Engineering Procurement	Yes	Yes	
Construction Installation Services	Yes	Yes	
Floating Production Unit (FPU) - Detailed Design Engineering	Yes	Yes	

Logistics - Provision of Helicopter Transfer Services	Yes	No
Logistics - Provision of Road Transportation	Yes	No
Logistics - Provision of Vessel Services: AHTS or PSV class	Yes	Yes
Logistics - Provision of a Supply Base	Yes	Yes
Logistics - Provision of Fuel	Yes	Yes
FPU - Topsides & Hull Engineering, Procurement & Construction	Yes	Yes
FPU Transportation to and Installation in field	Yes	Yes
FPU Hook Up and Commissioning	Yes	Yes
Subsea Linepipe Procurement	Yes	Yes
Subsea Linepipe Coating & Installation Services	Yes	Yes
Subsea Nearshore Civil Works	Yes	Yes
Subsea Light Well Intervention (LWI) Vessel Services	Yes	Yes
SURF (Subsea, Umbilical, Riser, Flowlines) Design and Engineering	Yes	Yes
Subsea Tree System, Structures and Manifold Fabrication	Yes	Yes
Subsea Connection System	Yes	Yes
Subsea Production Control System	Yes	Yes
Infield Rigid Flowline System and Coatings	Yes	Yes
Flexible Flowline and Jumper Fabrication	Yes	Yes
Flexible Riser System Fabrication	Yes	Yes
Umbilical System Fabrication	Yes	Yes
Subsea Hardware Installation Services	Yes	Yes
Subsea Risers and Flexibles Installation Services	Yes	Yes
Drill Rig Services	Yes	Yes
Provision of Electric Wire Services	Yes	Yes
Supply of Oil Country Tubular Goods (OCTG)	Yes	Yes
Provision of Surface (Mud) Logging Services	Yes	Yes
Provision of Tubular Running Services	Yes	Yes
Provision of Rental Equipment and Fishing Services	Yes	Yes
Provision of Cementing Services	Yes	Yes
Provision of Directional Drilling, Logging and Measurements While Drilling	Yes	Yes
Provision of Solids Control and Waste Management Services	Yes	Yes
Provision of Conductors and Associated Services	Yes	Yes
Provision of Well Completion Services	Yes	Yes
Provision of Slickline Services	Yes	Yes
Provision of Coiled Tubing Services	Yes	Yes
Provision of Drilling Fluids Materials and Services	Yes	Yes
Provision of Well Test Equipment and Services	Yes	Yes

*An Australian entity is an entity with an ABN or ACN

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name Kathryn Hassell
Contact person position Senior Contracts Adviser
Phone number 0893488778
E-mail Kathryn.Hassell@woodside.com

Project proponent website: https://www.woodside.com/what-we-do/growth-projects/Scarborough-Energy-Project?gad_source=1&gad_campaignid=19101499906&gclid=EAlaIQobChMlzlZjt6JkQMVxm0PAh0A8BMeEAAYASAAEgKrO_D_BwE

Project opportunities website:

<https://gateway.icn.org.au/projects/4263/pg-4263>

Supplier engagement and communication actions :

- Promote project opportunities through industry associations
- Engage with vendor identification agencies on project opportunities and bid processes
- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities

Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Transfer new product and process technology to suppliers
- Support supplier development initiatives of industry associations or governments

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Facilitate strategic partnering and joint ventures between Australian and international suppliers

Feedback:

The project proponent will ensure that its procurement entities offer, and if requested, provide feedback to Australian entities whose bids to supply key goods or services for the project have not been successful. Feedback will include recommendations about any relevant training, skills capability and capacity development.

Australian Industry Participation Plan Summary - Operations Phase

Nominated facility operator: WOODSIDE ENERGY LTD.

Facility details

Name: Scarborough Project

Location: Carnarvon Basin, approximately 375 km west-north-west of the Burrup Peninsula WA

Type: Petroleum facility

Key goods and services

Indicative list of key goods and services to be acquired for the new facility:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Supply Vessels	Yes	Yes	
Fixed Wing and Helicopter Logistics	Yes	Yes	
Facility & Onshore Personnel - Maintenance/ Vendor Support/ Trades/ Engineering	Yes	Yes	
Materials Logistics and Handling- Storage, Haulage and Stevedoring	Yes	No	
Consumables, Spares, Fuels and Lubricants, Chemicals	Yes	Yes	
Catering	Yes	No	
Communications	Yes	No	
Insurances	Yes	Yes	
Intervention and Survey Services	Yes	No	

*An Australian entity is an entity with an ABN or ACN
