## Australian Industry Participation Plan Summary - Project Phase

**Nominated project proponent:** Iron Road Ltd

### Project details

Name: Central Eyre Iron Project

Location: Warramboob (mine), Cape Hardy (port) plus infrastructure, Eyre Peninsula, SA

Type: Mine or quarry

Purpose: Establish new facility

Capital expenditure: \$5 billion - \$10 billion

Description: Iron Road Ltd (Iron Road) is proposing to source investment/partners at the Project and/or Company level to develop a 21.5 Mtpa magnetite mining and minerals processing operation near Warramboob, approximately 25 km southeast of Wudinna on the Eyre Peninsula in South Australia. The proposed mine (CEIP Mine) is part of Iron Road's Central Eyre Iron Project (CEIP). The proponent for the Mining Lease (ML), granted on 3 May 2017, is IRD Mining Operations Pty Ltd (IRD Mining), a wholly owned subsidiary of Iron Road. The proposed mine is a collection of four adjacent iron occurrences (Murphy South, Rob Roy, Boo-Loo and Dolphin) wholly within ML 6467. The proposed mining lease comprises an area of 6,414 hectares. Significant infrastructure is required to provide the logistics chain to enable export of the magnetite concentrate from the proposed mine to market. The required ancillary infrastructure is referred to as the CEIP Infrastructure and was assessed and approved separately under the Development Act 1993 (SA) (Development Act). The CEIP Infrastructure includes: • A deep-water port facility at Cape Hardy on the east coast of the Eyre Peninsula (Spencer Gulf) • A standard gauge railway line from the port site to the mine site • A power supply transmission line • A borefield and water pipeline • A long-term employee village located adjacent to the town of Wudinna The CEIP enjoys all Primary Approvals and requires Secondary Approvals for both the mine and infrastructure component. Timelines are flexible and commencement to completion may be expected from late 2028/29 – 2034/35, depending on various factors. At this time there is no Australian Government funding or grants. The project is listed with Infrastructure Australia as a Priority Project (Eyre Infrastructure Project).

Completion date: 30 Sep 2035

Project opportunities website:

[www.ironroadlimited.com.au](http://www.ironroadlimited.com.au)

Supplier engagement and communication actions :

- Promote project opportunities through industry associations
- Engage with vendor identification agencies on project opportunities and bid processes
- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities
- Develop and distribute a supplier information guide for the project
- Directly contact suppliers with information on project opportunities and bid processes

## Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Encourage joint ventures and alliances between suppliers
- Support supplier development initiatives of industry associations or governments
- Encourage Australian entities to undertake research and development and innovative activities

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Facilitate strategic partnering and joint ventures between Australian and international suppliers
- Provide references for high performing suppliers

Feedback:

The project proponent will ensure that its procurement entities offer, and if requested, provide feedback to Australian entities whose bids to supply key goods or services for the project have not been successful. Feedback will include recommendations about any relevant training, skills capability and capacity development.
