Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: TAGENERGY AUSTRALIA PTY LTD

Project details

Name: Nebo BESS

Location: Lot 20, Suttor Development Road, Nebo, Queensland 4742

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$1 billion - \$2 billion

Description: Nebo BESS is comprised of Nebo BESS #1 and Nebo BESS #2. Each tranche of the project consists of battery and inverter equipment as well as transformers, circuit breakers etc. with total capacity of 450MW and 1800MWh. Each 450MW tranche of the project has its own connection point in the 275kV bus at Powerlink's Nebo substation. The connection into Powerlink's substation for each 450MW tranche of the project, will be made via bus connection into a newly built bay & extension to the substation. Procurement and construction for the project is expected to commence towards the end of Q4 2026. Construction will commence in early 2027, and will run for approximately 2 years, with commissioning anticipated for early to mid 2029. The project has not secured any funding, grant or investment from the Australian Government at the time of writing.

Completion date: 31 Mar 2029
