

# Australian Jobs Act 2013

Reference code: T7P5N9-Q7Z7L6

## Australian Industry Participation Plan Summary – Project Phase

Nominated project proponent:

RES AUSTRALIA PTY LTD

### Project details

Project name:

Moah Creek

Location:

Stanwell, QLD

Type:

Electricity facility

Purpose:

Establish new facility

Capital expenditure:

\$500 million - \$1 billion

Description:

Moah Creek Wind Farm is located 30km west of Rockhampton in Central Queensland. The wind farm project involves the engineering, design, procurement, transportation, installation, and commissioning of up to 60 wind turbine generators, including all associated civil and electrical balance of plant for the wind farm. The project is anticipated to begin construction in 2026 and the construction period will be between 2-3 years. It's part of the larger integrated Central Queensland Power Project (CQP) which is being jointly developed by Energy Estate and RES. CQP is a portfolio of wind, solar and battery storage projects with a capacity of over 4GW designed to assist in transition of Central Queensland's power supply towards firmed renewable energy and in doing so to secure the future for heavy industry in Central Queensland. Moah Creek wind farm's location was chosen for its good wind speeds, proximity to transmission lines, accessibility to ports and town facilities, as well as our ability to achieve project goals with minimal environmental and community impacts. The procurement strategy is to tender to a range of respected wind turbine OEMs and balance of plants contractors. CQP will contract directly with the wind turbine OEM and the BoP Contractor. The BoP contractor will wrap the civil and electrical balance of plant components and directly source downstream contractors.

Estimated completion date:

31/05/2028

### Key goods and services

Indicative list of key goods and services to be acquired for the project:

**List of key goods and services:**

*An Australian entity is an entity with an ABN or CAN.*

Key goods and services	Opportunity for entities	Explanation for no opportunities for Australian entities
Wind Turbine Generators	Opportunities for Australian entities Opportunities for non-Australian entities	
Substation Equipment	Opportunities for Australian entities Opportunities for non-Australian entities	
Earthworks	Opportunities for Australian entities	
Land Transport	Opportunities for Australian entities	
Civil balance of Plant Construction	Opportunities for Australian entities	
Construction compound and Operation and Maintenance Facility	Opportunities for Australian entities	
Anchor Cages	Opportunities for Australian entities	

## Project standards:

Australian, International
---------------------------

## Supplier information and communication

### Project Proponents Contact Person

*Project proponent's contact person for supplier enquires.*

Contact person's name:

Steven Oswald

Contact person's position:

Chief Commercial Officer

Phone number:

0402060632

Email address:

steven.oswald@res-group.com

### Project Proponent Website

Project proponent website:

www.moahcreek.com

### Project Opportunities Website

#### List of websites:

Is this website active?	Is this website active?	Date the website is expected to go live:
www.moahcreek.com	Yes	

Supplier engagement and communication actions:

Promote project opportunities through industry associations  
 Engage with vendor identification agencies on project opportunities and bid processes  
 Conduct supplier information briefings on project opportunities and bid processes  
 Directly contact suppliers with information on project opportunities and bid processes

## Building Australian industry capability

### Supplier capability development actions:

Recommend suppliers undertake training and/or accreditation  
Provide market intelligence to suppliers  
Support supplier development initiatives of industry associations or governments

### Global supply chain integration actions:

Introduce suppliers to global supply chain partners

### Feedback:

Confirm you, and/or your procurement entities will offer and, if requested, provide feedback to unsuccessful Australian entities whose bids to supply key goods or services for the project have not been successful  
Confirm feedback provided to unsuccessful bidders will include any recommendations of relevant training, skills, capability and capacity development  
Confirm you will collect written evidence of feedback offered or provided to unsuccessful bidders

## Australian Industry Participation Plan Summary – Operations Phase

Nominated facility operator:

RES AUSTRALIA PTY LTD

### Facility details

Facility name:

Moah Creek

Location:

Stanwell, QLD

Type:

Electricity facility

### Key goods and services

Indicative list of key goods and services to be acquired for the new facility:

#### List of key goods and services:

*An Australian entity is an entity with an ABN or CAN.*

Key goods and services	Opportunity for entities	Explanation for no opportunities for Australian entities
Wind Farm Operation and maintenance	Opportunities for Australian entities Opportunities for non-Australian entities
