Australian Industry Participation Plan Summary – Project Phase

Nominated project proponent:

GIBSON ISLAND H2 PTY LTD

Project details

Project name:

Gibson Island Project

Location:

Gibson Island, Queensland

Type:

Other productive facility

Other project type:

Hydrogen manufacturing plant

Purpose:

Establish new facility

Capital expenditure:

☒ Confirm the total project estimated capital expenditure value will be \$500 million or more

Description:

The Proponent proposes to develop a green hydrogen manufacturing plant on Gibson Island, Queensland. The Project will make use of renewable energy and water to produce hydrogen through electrolysis, which is intended to be used for ammonia production by a third party. It is currently contemplated that the Project will include a 400 megawatt hydrogen plant with capacity to produce 57,000 tonnes of green hydrogen per year.

The Project will involve the construction of hydrogen electrolyzers, hydrogen storage and compression, cooling towers, a wastewater treatment plant, a high voltage receiving substation and switchyard and non-process infrastructure, inclusive of offices, gatehouse, warehouse, and a control room. The Proponents procurement and contracting strategy for the Project proposes the Proponent to contract all major packages directly, with equipment to be freeissued to the construction contractors.

Australian entities will have full, fair and reasonable opportunity to tender for supply of goods or services for the Project either directly with the Proponent, or in a subcontracting capacity with the Proponents major contractors.

The Proponents major contractors will be obligated in their contracts to comply with the Proponents AIP Plan requirements, to the extent applicable and relevant to their scope, and report to the Proponent on their compliance.

Procurement Activities Timeframe

Procurement activities are scheduled to commence on a date TBC.

FID is expected to occur on a date TBC.
Construction Activities Timeframe
Construction is scheduled to commence on a date TBC.
The green hydrogen facility is expected to be operational on a date TBC.

Estimated completion date:

31/12/2030

Key goods and services

Indicative list of key goods and services to be acquired for the project:

List of key goods and services:

An Australian entity is an entity with an ABN or CAN.

Key goods and services	Opportunity for entities	Explanation for no opportunities for Australian entities
List to be confirmed once project scope is defined.	Opportunities for Australian entities	

Project standards:

Australian, International

Supplier information and communication

Project Proponents Contact Person

Project proponent's contact person for supplier enquires.

Contact person's name:

Rebecca Sneddon

Contact person's position:

Project Opportunities Website

List of websites:

Is this website active?	Is this website active?	Date the website is expected to go live:
https://suppliers.fortescue.com/en	No	31/12/2027

Supplier engagement and communication actions:

Promote project opportunities through industry associations
Engage with vendor identification agencies on project opportunities and bid processes
Conduct supplier information briefings on project opportunities and bid processes
Issue media releases or ASX announcements on project developments and opportunities

Building Australian industry capability

Supplier capability development actions:

Recommend suppliers undertake training and/or accreditation
Provide market intelligence to suppliers
Encourage joint ventures and alliances between suppliers

Global supply chain integration actions:

Introduce suppliers to global supply chain partners, Facilitate strategic partnering and joint ventures between Australian and international suppliers

Feedback:

Confirm you, and/or your procurement entities will offer and, if requested, provide feedback to unsuccessful Australian entities whose bids to supply key goods or services for the project have not been successful
Confirm feedback provided to unsuccessful bidders will include any recommendations of relevant training, skills, capability and capacity development
Confirm you will collect written evidence of feedback offered or provided to unsuccessful bidders
