Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: Goyder Wind Farm 1 Pty Ltd as trustee for the Goyder Wind Farm 1 Trust

Project details

Name: Goyder South Wind Farm 1A

Location: Regional Council of Goyder Local Government Area, South Australia

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$500 million or more

Description: The Goyder Renewables Zone in South Australia is a large renewables project located within the Regional Council of Goyder. The first stage (with Development Approval) is the Goyder South Hybrid Renewable Energy Facility, with potential for a total of 1.2GW of wind, 900MW/1,800MWh battery storage and 600MW solar. The Goyder South Project is located between the towns of Burra and Robertstown, approximately 100km north-east of Adelaide in South Australia. Neoen may consider further expansions in the future to the North, however, these plans are not advanced. GSWF 1A is the first stage of wind-only component (209MW / 38 wind turbines) for the Goyder South Project. The connection assets to the grid will include transformers to be procured and installed at the wind farm's 275/33kV substation and switchyard to be owned by the project, connected to an expansion of ElectraNet's Robertstown 275kV substation via an approximately 34km overhead line. The Project will be financed on the back of a Power Purchase Agreement signed with the ACT Government for a 100MW offtake and with FlowPower for a 40MW offtake. Due to the timing of the offtake, early works are expected to commence on site November 2021, with full construction commencing in April 2022 following completion of key procurement items, and the facility received approval to generate at full output in July 2025, and that the asset can now be considered as operational.

Completion date: 30 Jan 2027

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Reactive Plant (incl harmonic filters as required)	Yes	Yes	
Electrical equipment (incl. switch gear)	Yes	Yes	
Tooling	Yes	Yes	
Switch Room	Yes	Yes	
Operations and Maintenance Building	Yes	Yes	
Steelwork for foundations	Yes	Yes	
Concrete	Yes	Yes	
Design Services	Yes	Yes	
Construction Services	Yes	Yes	
Engineering Services	Yes	Yes	
Cable installation	Yes	Yes	
Turbine erection services	Yes	Yes	
Civil Works	Yes	Yes	
Site Facilities and Cleaning Services	Yes	Yes	
Site Security	Yes	Yes	
Electrical Installations	Yes	Yes	
Substations construction works	Yes	Yes	
Consultants including commissioning resources	Yes	Yes	
Security fencing	Yes	Yes	
Logistics services	Yes	Yes	
Wind turbine towers	Yes	No	
Transformers	Yes	No	

* An Australian entity is an entity with an ABN or ACN

Project standards:

International

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name Sofia Cremonini
Contact person position Construction Project Manager
Phone number 0475572501
E-mail sofia.cremonini@neoen.com

Project proponent website: <https://goyderenergy.com.au>

Project opportunities website:

<https://goyderenergy.com.au>

Supplier engagement and communication actions :

- Engage with vendor identification agencies on project opportunities and bid processes
- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities
- Directly contact suppliers with information on project opportunities and bid processes

Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Provide market intelligence to suppliers
- Encourage joint ventures and alliances between suppliers

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Support suppliers to register with global supplier databases
- Facilitate strategic partnering and joint ventures between Australian and international suppliers
- Provide references for high performing suppliers
- Integration of minor suppliers into larger work packages and upskilling of local workers in globally applicable courses

Feedback:

The project proponent will ensure that its procurement entities offer, and if requested, provide feedback to Australian entities whose bids to supply key goods or services for the project have not been successful. Feedback will include recommendations about any relevant training, skills capability and capacity development.

Australian Industry Participation Plan Summary - Operations Phase

Nominated facility operator: Goyder Wind Farm 1 Pty Ltd

Facility details

Name: Goyder South Wind Farm 1A

Location: Regional Council of Goyder Local Government Area, South Australia

Type: Electricity facility

Key goods and services

Indicative list of key goods and services to be acquired for the new facility:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
electrical spare parts	Yes	Yes	
Vegetation management	Yes	Yes	
Civil maintenance services	Yes	Yes	
Operations and maintenance services	Yes	Yes	

*An Australian entity is an entity with an ABN or ACN

Facility standards:
