Description:

MEL02 Building A is the development of a greenfield data centre and the first building to be constructed in a 36ha industrial development site located in Truganina Victoria, 39 km west of Melbourne's CBD. The project involves civil works, construction, fit out and commissioning of the data centre. The centre comprises electrical systems capable of managing approx. 180MVA of power, the construction of commercial premises to house and operate data servers, including ancillary office space, parking and landscaping. High voltage electrical infrastructure will be provided by third parties. The project proponent will engage a Design and Construct Partner (procurement entity). Both the proponent and procurement entity will procure goods and services for the project. Early contractor involvement has commenced, with final investment decision expected in October 2026. The procurement of long lead items is expected to commence in November 2026, with construction commencing April 2027, commissioning for Phase 1 and 2 is expected in June 2029.

Estimated completion date:

12/12/2030
