Australian Industry Participation Plan Summary – Project Phase

Nominated project proponent:

GIBSON ISLAND H2 PTY LTD

Project details

Project name:

Gibson Island Green Ammonia Project

Location:

Gibson Island, Queensland

Type:

Other productive facility

Other project type:

Ammonia plant upgrade.

Purpose:

Upgrade existing facility

Capital expenditure:

☒ Confirm the total project estimated capital expenditure value will be \$500 million or more

Description:

The Project has been identified as an opportunity to develop a green ammonia hub in Brisbane, Queensland through construction of a green hydrogen production facility alongside an existing gas-based facility, located on Gibson Island.
The Project the subject of this AIP Notification includes upgrading an existing ammonia plant which shall convert green hydrogen from Fortescue's H2 plant into green ammonia.
Australian entities will have full, fair and reasonable opportunity to tender for supply of goods or services for the Project either directly with the Proponent, or in a subcontracting capacity with the Proponent's major contractors. The Proponent's major contractors will be obligated in their contracts to comply with the Proponent's AIP Plan requirements (to the extent applicable and relevant to their scope) and report to the Proponent on their compliance.
FID is expected to occur on a date TBC.
Procurement activities are rescheduled to commence on a date TBC.
Construction is scheduled to commence on a date TBC.
The facility is expected to be operational on a date TBC.

Estimated completion date:

31/12/2030

Key goods and services

Indicative list of key goods and services to be acquired for the project:

List of key goods and services:

An Australian entity is an entity with an ABN or CAN.

Key goods and services	Opportunity for entities	Explanation for no opportunities for Australian entities
Site preparation	Opportunities for Australian entities Opportunities for non-Australian entities	
Process technology solution and design of ammonia plant	Opportunities for Australian entities Opportunities for non-Australian entities	
Wastewater treatment and effluent drainage	Opportunities for Australian entities Opportunities for non-Australian entities	
Raw water supply	Opportunities for Australian entities Opportunities for non-Australian entities	
Substation / switchyard	Opportunities for Australian entities Opportunities for non-Australian entities	
Non-process infrastructure	Opportunities for Australian entities Opportunities for non-Australian entities	
Wharf / port upgrades	Opportunities for Australian entities Opportunities for non-Australian entities	
Telecommunications / IT and security systems	Opportunities for Australian entities Opportunities for non-Australian entities	
33kV switchgear and switchroom	Opportunities for Australian entities Opportunities for non-Australian entities	
HV transformers	Opportunities for Australian entities Opportunities for non-Australian entities	

Construction and assembly of long lead item package	Opportunities for Australian entities Opportunities for non-Australian entities	
Fabrication of process equipment	Opportunities for Australian entities Opportunities for non-Australian entities	

Project standards:

Australian, International

Supplier information and communication

Project Proponents Contact Person

Project proponent's contact person for supplier enquires.

Contact person's name:

Rebecca Sneddon

Contact person's position:

Lead Contracts

Phone number:

Project Opportunities Website

List of websites:

Is this website active?	Is this website active?	Date the website is expected to go live:
https://suppliers.fortescue.com/en	No	30/12/2027

Supplier engagement and communication actions:

Promote project opportunities through industry associations
Engage with vendor identification agencies on project opportunities and bid processes
Conduct supplier information briefings on project opportunities and bid processes
Issue media releases or ASX announcements on project developments and opportunities

Building Australian industry capability

Supplier capability development actions:

Recommend suppliers undertake training and/or accreditation
Provide market intelligence to suppliers
Encourage joint ventures and alliances between suppliers

Global supply chain integration actions:

Introduce suppliers to global supply chain partners, Facilitate strategic partnering and joint ventures between Australian and international suppliers

Feedback:

Confirm you, and/or your procurement entities will offer and, if requested, provide feedback to unsuccessful Australian entities whose bids to supply key goods or services for the project have not been successful
Confirm feedback provided to unsuccessful bidders will include any recommendations of relevant training, skills, capability and capacity development
Confirm you will collect written evidence of feedback offered or provided to unsuccessful bidders
