

Australian Industry Participation (AIP) plan Summary – Project Phase

1. Project Details

Nominated project proponent: Anglo Coal (Capcoal Management) Pty Limited

Project name: Aquila Project

Description of the project: The objective of the Aquila Project (Project) is to convert the previous Aquila bord and pillar mine located at the Capcoal mining complex in Central Queensland’s Bowen Basin, to a longwall operation. The Project aims to deliver a medium seam longwall operation targeting the Aquila and Aquila Lower coal seams to produce hard coking coal.

The scope of the Project includes partial procurement, installation and commissioning of a longwall system, modification of the existing Grasstree development system to support longwall operations, modification of the existing Grasstree mobile equipment fleet to suit the lower, medium height Aquila seam, removal of existing underground conveyor system and replacement with the higher capacity, modified Grasstree conveyor system, construction of a surface material handling system that loads onto the existing Grasstree ROM reclaim stockpile and pushout pad, and limited upgrade to the site services including electrical, controls and water systems to support the new longwall operations. The Project will be delivered using an owner’s team responsible for performing all the procurement related functions.

The Project implementation commenced on 2 September 2019 and will continue through until January 2022.

Estimated project value: AUD\$655M

Project location: Middlemount, Queensland, Australia

Link to project information: <http://www.angloamerican.com.au/>

Project contact for procurement information: Gordon Garcia, T – 07 3834 1971, E – gordon.garcia@angloamerican.com

Other project proponents involved in the project: Anglo Coal (German Creek) Pty Ltd, Jena Pty Limited, Mitsui German Creek Investment Pty Ltd

2. Opportunities to supply Goods and Services

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities
Goods		
Longwall - Shields & Pans	Yes	Yes
Development - Electrics (NEW)	Yes	No
Compressed Air facilities & Infrastructure	Yes	No
Real-Time Gas Monitoring	Yes	No

Voice Communications - I.S. Telephone & Intercom Systems	Yes	No
Underground Cap Lamps, Messaging, Tracking & IP Telephone System	Yes	No
Underground Fibre Optic Infrastructure	Yes	No
SCADA / PLC Systems Integration	Yes	No
Fire / Raw & dewatering Water system	Yes	No
Mine De-Watering System	Yes	No
Development Phase - Trunk & Gate System	Yes	No
Surface Conveyor	Yes	No
Longwall Phase - Trunk & Gate System	Yes	No
Services		
Longwall - BSL & AFC Drives (Overhaul)	Yes	No
Longwall - Monorail (Overhaul)	Yes	No
Longwall - Shearer (Overhaul)	Yes	No
Longwall - Pump Station (Overhaul)	Yes	No
Longwall - Electrics (Overhaul)	Yes	No
UME - LHD's & Grader (Overhaul)	Yes	No
UME - Man Transporters (Overhaul)	Yes	No
UME - Attachments & Trailers (Overhaul)	Yes	No
Development - Continuous Miner CM001 (Overhaul)	Yes	No
Development - Continuous Miner CM002 (Hire)	Yes	No
Development - Continuous Miner CM003 (Overhaul)	Yes	No
Development - Shuttle Car (Overhaul)	Yes	No
Development - Feeder Breaker (Overhaul)	Yes	No
Development - Electrics (Overhauls)	Yes	No
Surface Buried Services (FRW/CA) (Civil Works)	Yes	No

Shaft Construction (Predevelopment Works)	Yes	No
Backfill Existing GTM Shaft #2 & 3 (Predevelopment Works)	Yes	No
Main Fan Install Shaft 2 (Overhaul)	Yes	No
Shaft Top infrastructure (Predevelopment Works)	Yes	No
Drift Portal emergency doors (Fabrication)	Yes	No
Development Phase - Trunk & Gate System (Overhaul)	Yes	No

Disclaimer: The information provided in the table above is based on an initial assessment by the company. Any questions or issues should be raised with the project contact.

Explanation for item(s) in list above where it is indicated 'No Opportunities for Australian entities'

Not Applicable

3. Standards to be used in the project

- Australian Standards

4. AIP activities to be undertaken by the Project Proponent

- Promote Project opportunities through industry associations, engage vendor identification agencies on Project opportunities, issue media releases on Project developments and opportunities and direct contact with suppliers with information on Project opportunities.
- Where an opportunity to introduce Australian suppliers to global supply chain partners presents itself throughout the Project, the Nominated Project Entity and Anglo American will endeavour to do so.
- The Project will include the list of suppliers who register EOI's for package subcontract opportunities in the tender documentation for the relevant package to transfer market intelligence.
- Request that suppliers provide information with regards to their accreditations as part of the ICN EOI process.
- Provide references for high performing suppliers.
- Provide feedback to all unsuccessful Australian tenderers.
- Keep relevant records and evidence of prove compliance with the AIP plan, allocate adequate resources to implement the AIP plan and develop a AIP plan checklist and hold weekly for procurement meetings

5. AIP activities to be undertaken by procurement entities

The Project will make use of the ICN Project Gateway to give all Australian entities a fair and equal opportunity to submit expressions of interest for project packages listed on the website.

The Nominated Project Proponent will utilise an online tendering system to ensure a robust, open and transparent tendering process. Through this electronic system, all tenders are issued at the same time via email to pre-qualified or identified potential tenderers. Tender documents are

standardised so that they are consistent across the Project and are required to be submitted online with timeframes for submission the same for all tenderers. This ensures tender costs remain low for potential suppliers, and ensures tenderers have the same opportunities.

The Nominated Project Proponent will incorporate an AIP clause into its supply contracts and tendering documents to ensure that its suppliers are aware of their obligations to provide local industry with full, fair and reasonable opportunity to participate in the Project.
