

# Australian Industry Participation (AIP) plan Summary - Operations Phase

## **1. Facility Details**

**Nominated operator:** Eagle Downs Coal Management Pty Ltd

**Facility name:** Eagle Downs Metallurgical Coal Project

### **Description of the facility:**

The Eagle Downs Metallurgical Coal Project would involve the development of an underground longwall metallurgical coal mine, in Queensland's Bowen Basin with potential to export 4.5Mtpa of coal (on average). The project was placed under and care and maintenance in late 2015 and is currently undergoing feasibility studies where a development decision is expected in the second half of 2020. When development commences, the procurement approach will be predominately by EPC contracts and the project duration will be approximately 3.5 years.

EDCM is developing the project for and on behalf of the Joint Venture Participants, Aquila Coal Pty Ltd and Eagle Downs South32 Pty Ltd.

**Facility location:** Winchester QLD

Nick Atkin, [EDC.Procurement@South32.net](mailto:EDC.Procurement@South32.net)

### **Other operators involved in the facility:**

Aquila Coal Pty Ltd

South32 Eagle Downs Pty Ltd

## 2. Opportunities to supply Goods and Services

Key goods and services for the facility	Opportunities for Australian entities	Opportunities for non-Australian entities
<b>Goods</b>		
Fuel	Yes	No
Electricity	Yes	No
<b>Services</b>		
In-Seam Development	Yes	No
CHPP Operational Contract	Yes	No
Accommodation	Yes	No
Travel	Yes	No

Disclaimer: The information provided in the table above is based on an initial assessment by the company. Any questions or issues should be raised with the facility contact.

### Explanation for item(s) in list above where it is indicated 'No Opportunities for Australian entities'

Australian entities have opportunities for all items in the list.

## 3. Standards to be used in the facility

- It is the requirement of EDCM that Standards for goods and services for the initial operations of the facility meet or exceed Australian Standards or internationally recognised equivalents. All entities are required to meet these standards. It is expected that all Australian entities are capable to meet these standards.

## 4. AIP activities to be undertaken by the Operator

- EDCM will maintain a publicly accessible website for key goods and services for the initial operations of the facility. Pre-qualification requirements required standards and contact details of the appointed procurement officer will be published through this website. <https://www.south32.net/what-we-do/places-we-work/eagle-downs-metallurgical-coal>
- Communication through the ICN Gateway <https://gateway.icn.org.au/project/1734/eagle-downs-coal>
- Public announcements through company website (ongoing)
- Attend Moranbah Traders Association meetings (meetings are held bi-monthly and we will be guided by the organiser as to the frequency of attendance, target is to participate around our Financial Investment Decision)
- Attend Bowen Basin Mining Club meetings or provide and update to their members (meetings are held bi-monthly and we will be guided by the organiser as to the frequency of attendance, target is to participate around our Financial Investment Decision)

- Attend Resources Industry Network briefings (meetings are held monthly and we will be guided by the organiser as to the frequency of attendance, target is to participate in the 6 months leading up to operation commencing)
- EDCM will keep records of meetings attended.

#### **5. AIP activities to be undertaken by procurement entities**

- The Operator is the procurement entity.
- Tendering opportunities through the ICN Gateway (<https://gateway.icn.org.au/project/1734/eagle-downs-coal>) and include prequalification questionnaire and scope of work and standards required to be met.
- All vendors will be provided equal and reasonable time frames provided during the expression of interest and tendering phases.
- Feedback to unsuccessful vendors.
