

# Australian Industry Participation (AIP) plan Summary – Operations Phase

## 1. Project Details

**Designated operator:** Stockyard Hill Wind Farm Pty Ltd

**Project name:** Stockyard Hill Wind Farm

**Description of the project:** Stockyard Hill Wind Farm is a nominal 532 MW (149 Turbine) wind farm. Operations of the wind farm will incorporate a diverse range of activities, including day to day maintenance of turbines, HV electrical operations and substation maintenance, road maintenance, and consulting services. Goldwind Australia Pty Ltd has been appointed by Stockyard Hill Wind Farm to carry out maintenance services commencing when the wind farm reaches full operations by the start of Q1 2021.

**Facility location:** Between Beaufort and Skipton, South West Victoria

**Link to project information:** <http://www.stockyardhillwindfarm.com.au>

**Operator contact for procurement information:** Vincent Qiao, 1800 753 730, [stockyard@goldwindaustralia.com](mailto:stockyard@goldwindaustralia.com)

**Other project proponents involved in the project:** Not Applicable

## 2. Opportunities to supply Goods and Services

Expected opportunities	Opportunities for Australian entities	Opportunities for non-Australian entities
<b>Goods</b>		
Supply of Spare Parts for Wind Turbine Generators	No <sup>1</sup>	Yes
Supply of general Balance of Plant (BoP) Spare Parts	Yes	Yes
Specialist Tools and Safety Equipment	Yes	Yes
<b>Services</b>		
Supply of Turbine Maintenance Technicians	Yes	No
Supply of BoP Service Technicians	Yes	No
Supply of General Services Contracts	Yes	No

<sup>1</sup> Wind Turbine Generator Parts will not be purchased in Australia as there is no manufacturing presence in Australia for these components (based on recent research of Australian industry capability by Stockyard Hill Wind Farm).

<b>Expected opportunities</b>	<b>Opportunities for Australian entities</b>	<b>Opportunities for non-Australian entities</b>
<b>Goods</b>		
Supply of Consultancy Services	Yes	Yes
Supply of HSE Training	Yes	No

Disclaimer: The information provided in the table above is based on an initial assessment by the company. Any questions or issues should be raised with the project contact.

### **3. Standards to be used in the project**

- Australian and recognised International standards will be used for the project.

### **4. AIP activities to be undertaken by the Project Proponent**

The Project Proponent will:

- Publish prequalification requirements, standards for key goods and services and the contact details for procurement officers on the Stockyard Hill Wind Farm website.
- Ensure relevant information from interested parties documented during the construction phase is passed to the Service Contractor.
- Maintain a database of applicable training opportunities that may be of interest to various participating entities and distribute this information down the supply chain on a regular basis.
- Manage compliance with the AIP Plan.

### **5. AIP activities to be undertaken by procurement entities**

Procurement Entities will:

- Maintain the SHWF website for interested parties to register their interest in project work opportunities.
- Provide contact details of their procurement officer for publication on the project websites.
- Manage detailed tendering and procurement prequalification processes.
