Submission in response to the Statement of Facts

1. Introduction

I am the exporter of aluminium windows and doors from China relevant to Case 691. I submit this non-confidential submission to respond to the Statement of Facts issued by the Australian Trade Remedies Commission.

2. Background

I exported one consignment of aluminium windows and doors to Australia. [Redacted text] [Explanation: commercial-in-confidence transaction details and supporting shipping documents are contained within the separate confidential version of this submission.] This is my genuine commercial transaction.

3. Submission argument

I did not sell the goods below cost. The selling price to Australia is based on the actual purchase cost from the manufacturer, plus freight and other related expenses. The price is a normal market price in ordinary trade.

I failed to respond to the prior questionnaire due to oversight, not because I intended to conceal information. I now provide the full transaction records and cost evidence in the confidential version for the Commission’s review.

4. Request

I respectfully request the Commission to take this submission and my supporting confidential evidence into consideration, and apply the appropriate anti-dumping rate applicable to my actual transaction.

5. Declaration

I confirm that all information provided is true and accurate.

For and on behalf of ZHUZHOUFURUI NEW MATERIALS CO., LTD.
