

TRADE REMEDIES NOTICE NO 2026/134

Customs Act 1901 – Part XVB

STEEL REINFORCING BAR

Exported from the Republic of Indonesia by

PT The Master Steel Manufactory

Findings in relation to Accelerated Review No 708 of Anti-Dumping Measures

Public Notice under section 269ZG(3) of the Customs Act 1901

The Commissioner of the Australian Trade Remedies Commission has completed the accelerated review, which commenced on 23 June 2026, of the anti-dumping measures applying to steel reinforcing bar ('the goods') exported to Australia from the Republic of Indonesia (Indonesia) by PT The Master Steel Manufactory ('the applicant').

Recommendations resulting from that review, reasons for the recommendations and material findings of fact and law in relation to the review are contained in *Australian Trade Remedies Commission Report No 708* (REP 708).

I, TIM AYRES, the Minister for Industry and Innovation and Minister for Science, have considered REP 708 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of fact and law set out in REP 708.

Under section 269ZG(3) of the *Customs Act 1901* (the Act), I declare that, with effect from 23 June 2026, for the purposes of the Act and the *Customs Tariff (Anti-Dumping) Act 1975* (the Dumping Duty Act), the original dumping duty notice had applied to the applicant but the Minister had fixed specified different variable factors relevant to the determination of duty.

I determine, pursuant to section 8(5) of the Dumping Duty Act, that the interim dumping duty (IDD) payable on the goods exported to Australia from Indonesia by the applicant is an amount worked out in accordance with the floor price duty method as set out in sections 5(4) and 5(5) of the *Customs Tariff (Anti-Dumping) Regulation 2013*.

Particulars of the dumping margin and rate of IDD are detailed in the table below.

Exporter	Dumping margin	Effective rate of IDD	Duty method
PT The Master Steel Manufactory	0.0%	N/A	Floor price

IDD will be payable on the goods exported by the applicant only when the actual export price is below the floor price, which is a specified (confidential) amount per metric tonne as set out in Confidential Table 1 to this notice.

Affected parties should contact the Australian Trade Remedies Commission on 13 28 46 or at clientsupport@atrc.gov.au for further information regarding the actual duty liability calculation in their particular circumstances.

REP 708 has been placed on the public record and is available at www.atrc.gov.au. The public record may also be examined at the Australian Trade Remedies Commission office by contacting the case manager using the details below.

Enquiries about this notice may be directed to the Case Manager by email at investigations2@atrc.gov.au.

Dated this 29th day of October 2026
