

TRADE REMEDIES NOTICE NO 2026/132

Certain Hollow Structural Sections Exported to Australia from the People's Republic of China by Yueqing Yihua New Energy Technology Co., Ltd

Termination of Accelerated Review No 714

Customs Act 1901 – Part XVB

1. Introduction

I, David Latina, Commissioner of the Australian Trade Remedies Commission (the Commissioner), notified interested parties on 10 August 2026 that I had commenced an accelerated review of the anti-dumping measures applying to certain hollow structural sections (the goods) exported to Australia from the People's Republic of China (China), insofar as those measures relate to a new exporter, Yueqing Yihua New Energy Technology Co., Ltd. (the applicant).

The review followed an application lodged by the Applicant on 15 July 2026 under section 269ZE(1) of the *Customs Act 1901* (Cth) (the Act).

2. Grounds for termination

If, during an accelerated review, the Commissioner becomes satisfied that the applicant is refusing to cooperate with any aspect of the review, the Commissioner may terminate the review under section 269ZE(3)(a) of the Act.

On 21 July 2026, the commission sent a questionnaire to the applicant, with a response due by 27 August 2026. The questionnaire requested information necessary to complete the accelerated review. The applicant submitted its exporter questionnaire response on the due date. However, the commission identified material deficiencies in the response, including missing documents and incomplete data. The commission provided the applicant further opportunity to rectify the deficiencies and requested that the applicant address them in a further response due by 3 September 2026.

The applicant subsequently submitted some further information which addressed some deficiencies by that date, however material deficiencies remained and the commission remained unable to advance the application.

As the applicant has failed to provide the information required to complete the accelerated review within the strict legislated timeframe, and despite being provided sufficient opportunity to do so, I am satisfied that the applicant is refusing to cooperate with an aspect of the review. Accordingly, I am terminating the accelerated review under section 269ZE(3)(a) of the Act.

3. Effect of termination of the accelerated review

Termination of the accelerated review means that any securities required and taken in relation to goods exported by the applicant and entered for home consumption on or after

PUBLIC RECORD

15 July 2026 will be converted to interim dumping duty. The applicable rate is the 'all other exporters' rate of interim dumping duty for China.

Termination of the accelerated review does not affect the applicant's right to apply for another accelerated review.

Further details on the goods and existing measures are available on the Dumping Commodity Register on the Australian Trade Remedies Commission website at www.atrc.gov.au.
