Re: Investigation No. 691 – Aluminium Windows and Doors from China

Dear Director,

Support for Statement of Essential Facts No. 691

I write on behalf of Hi-Point Windows, an Australian manufacturer and fabricator of aluminium windows and doors based in New South Wales, to express our support for Statement of Essential Facts No. 691 (SEF).

We also support the continuing work of the Australian Glass and Window Association (AGWA) and the Australian industry applicants to secure a fair and level playing field for Australian manufacturers.

In particular, we support the Commissioner's preliminary findings that aluminium windows and doors exported from China were dumped, that the Australian industry has suffered material injury as a result of dumped and subsidised imports, and that dumping and subsidisation may continue.

As an Australian fabricator, we believe Australian manufacturers are capable of supplying aluminium windows and doors across a broad range of residential and commercial applications. We support the finding that the Australian industry is not confined to Class 1 buildings and supplies products across Class 1 to Class 9 buildings.

In our experience, Australian manufacturers are ready to compete on quality, service, compliance, capability and price, but that competition must take place on fair terms.

Our own business has been directly affected by competition from Chinese imports of aluminium windows and doors, through lost projects, pressure to reduce prices, reduced margins, lower production volumes, reduced capacity utilisation, and constrained investment and employment.

Accordingly, we support the imposition of effective measures that remedy the injurious effects of dumping and subsidisation and allow Australian manufacturers to compete on a fair and sustainable basis.

We also support AGWA continuing to represent Australian fabricators for the remainder of this investigation, including in responding to matters arising from the SEF.

This investigation matters to our business and to the future competitiveness of Australian window and door manufacturing. We urge the Commission to ensure that the final measures deliver a meaningful and durable level playing field for Australian industry.

Kind Regards

Jayesh Galiara
