## *Certificate of Approval*

---

CERTIFICATE NUMBER 1/2A/6

*In respect of the pattern of*

Trumeter Fabric-measuring Instrument and Variant.

Submitted by: Noel P. Hunt (Victoria) Pty. Ltd.,  
1-11 Hawke Street,  
Melbourne,  
Victoria. 3000.

Manufactured by: Trumeter Co. Ltd.,  
Milltown Street,  
Radcliffe, near Manchester,  
England.

This is to certify that the pattern and variant of the instrument illustrated and described in this Certificate have been examined by the National Standards Commission under the provisions of the abovementioned Regulations and have been approved as being suitable for use for trade.

The pattern and variant were approved on 3rd December, 1971.

Approval was granted on condition that all instruments made in conformity with this Certificate:

1. are appropriately marked NSC No 1/2A/6 and, where required by State legislation, with the State approval number also; and

9/12/71

Cont'd over

2. comply with the General Specifications for Weighing and Measuring Instruments to be Used for Trade, in respect of that part of the instrument which was not previously approved by a State.

This Certificate comprises:

Pages 1 to 3 dated 9th December, 1971.

Figures 1/2A/6 - 1 to 3 dated 9th December, 1971.

Pursuant to regulation 12 of the abovementioned Regulations, this Certificate is applicable only in the State of Victoria.

Date of issue 9th December, 1971.

Signed

A person authorised by the Commission to sign Certificates under the abovementioned Regulations.

---

DESCRIPTION OF PATTERN

The pattern is of a modification of the Trumeter fabric-measuring instrument approved under the Victorian Notices of Approval Nos 156 and 596. The modification consists of the fitting of a push-button reset and a second set of indicator wheels.

The push-button reset is located on the top of the indicator mechanism and replaces the lever reset mounted on the end of the housing (see Figure 1).

The second set of indicator wheels is numbered and denominated in a similar manner to, and is driven by, the first set of indicator wheels described in the Victorian Notices of Approval (see Figure 2). The second set of indicator wheels is viewed through a window located at the front of the housing; the first set is not visible with the housing in place (see Figure 1).

The two sets of indicator wheels are sealed by lead-and-wire seals, the wire passing through the heads of the mounting screws (see Figure 2).

DESCRIPTION OF VARIANT

Having the viewing window located on the top of the housing as shown in Figure 3.

## NATIONAL STANDARDS COMMISSION

CERTIFICATE OF APPROVAL No 1/2A/6

VARIATION No 1

Approved: Trumeter Fabric-measuring Instrument

This is to certify that the patterns of the abovementioned instrument, approved under the belowmentioned State and National Standards Commission approvals, have been approved (without territorial limitations) under the Weights and Measures (Patterns of Instruments) Regulations as being suitable for use for trade when converted to read in metric units in accordance with Appendix 11 of the General Specifications for Measuring Instruments to be Used for Trade.

Date of Approval: 24 April 1975

Description of Pattern:

The State-approved pattern and variants are described in the following approvals:

New South Wales	...	Approval No 183
Victoria	...	Approval Nos 156, 596

Patterns approved by the Commission under regulation 12 are described in:

Certificate of Approval No 1/2A/6 dated 9 December 1971

Conditions of Approval:

1. This approval is currently under review to determine the extent to which the patterns may need to be modified to comply with the Commission's pattern approval requirements.
2. All instruments conforming to this approval shall be marked "NSC No 1/2A/6".
